“An augmented version of MCTS” application has been designed for early identification and tracking of the individual beneficiary throughout the reproductive life cycle.

Application facilitates to ensure timely delivery of full component of antenatal, postnatal & delivery services and tracking of children for complete immunization services.

RCH portal has been designed to meet the requirements of the RMNCH program by incorporating additional functionality and features of the MCTS.

Executive Summary

Ministry of Health & Family welfare has introduced an innovative web based application called Mother & Child Tracking System (MCTS) with the objectives to

- I.** Facilitate timely delivery of all services to pregnant women and children
- II.** Strengthen health care service delivery system
- III.** Improve service delivery coverage and
- IV.** Monitoring mechanism at all level.

MCTS has been implemented across the country and currently, all the States/UTs are reporting regularly on MCTS portal.

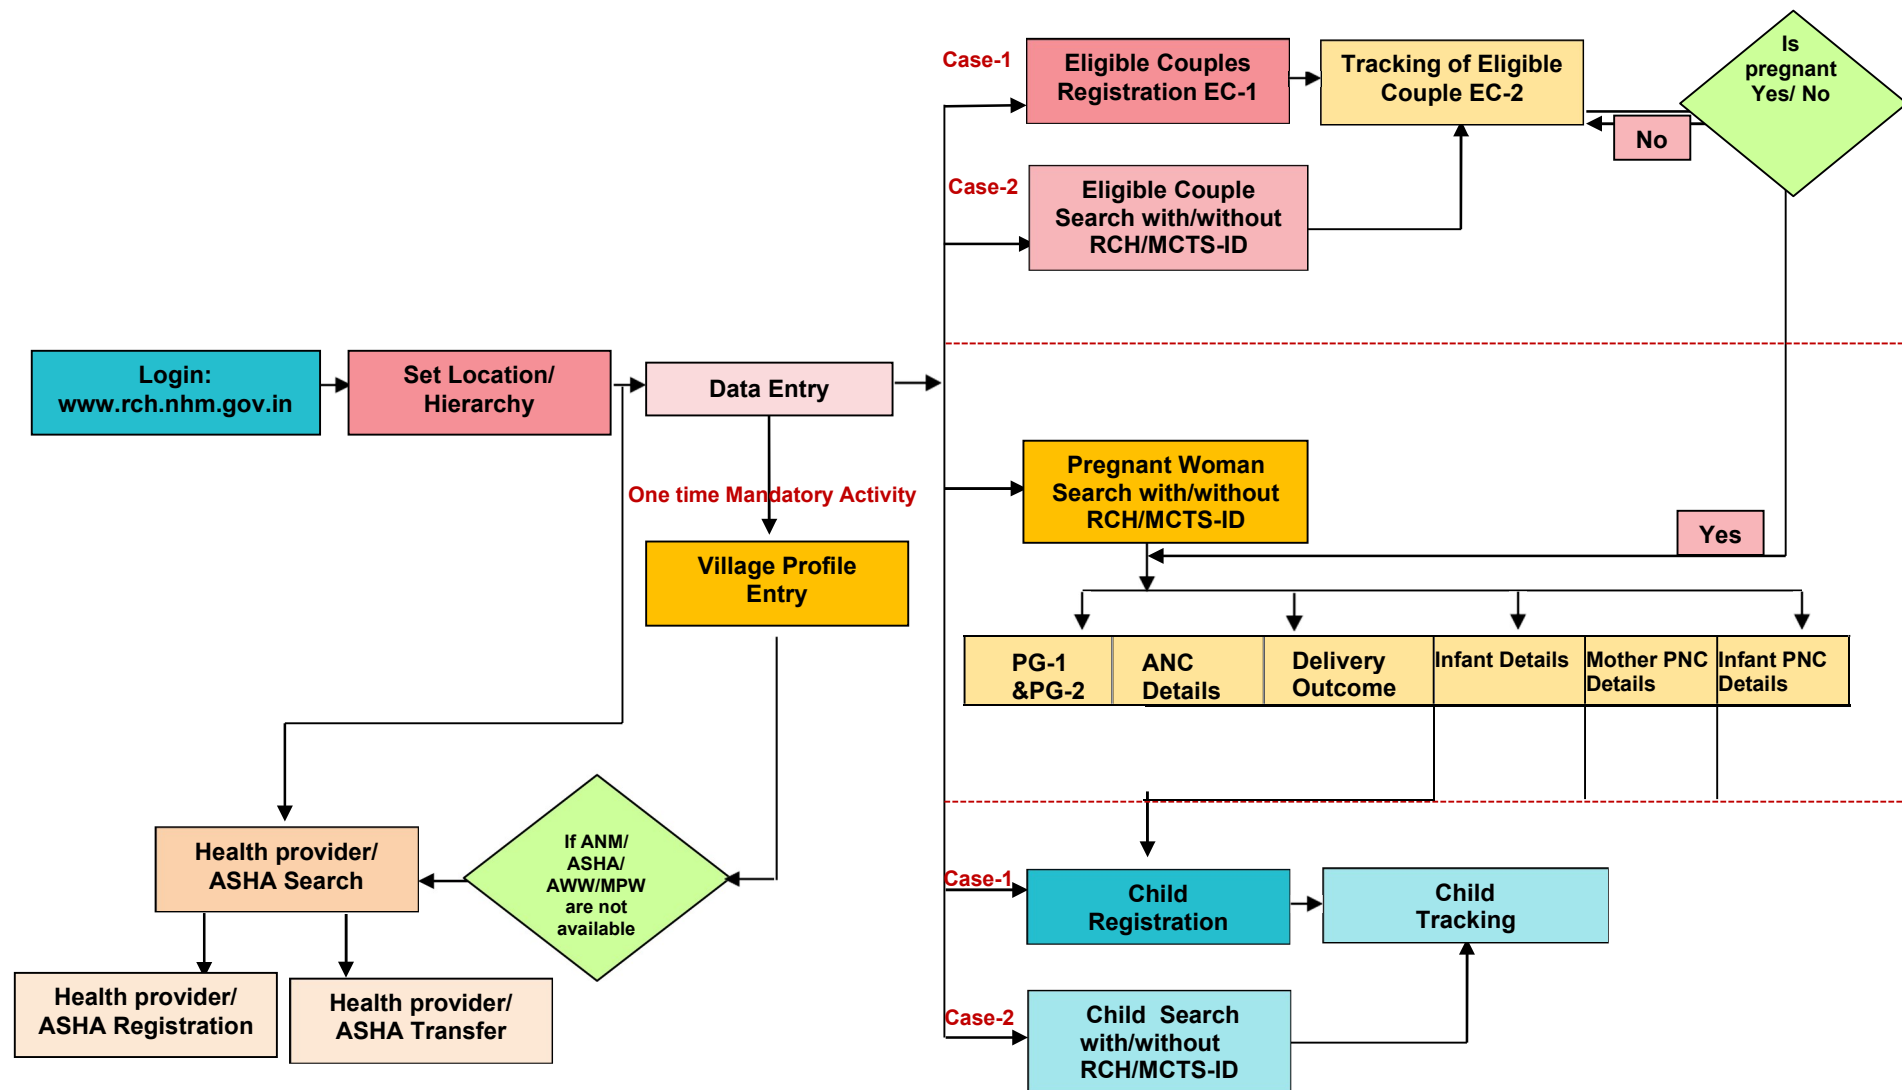

Due to the changing data requirements of National Reproductive and Child Health (RCH) programmes, the Ministry has designed RCH portal, wherein, Eligible Couples, Pregnant Women and Children will be tracked for health care service delivery to them. The RCH portal will transit MCTS portal in phase manner.

The RCH portal will further strengthen health care delivery system; improve service coverage and monitoring mechanism. The use of this information for early identification and management of basic complications during pregnancy, childbirth and post -partum period at field level will help in reducing the maternal, neonate and infant mortality rates and support to achieve the Millennium Development Goal (MDG) numbers four and five .

Total 30 States are reporting in RCH portal.

Data entry Process Flow

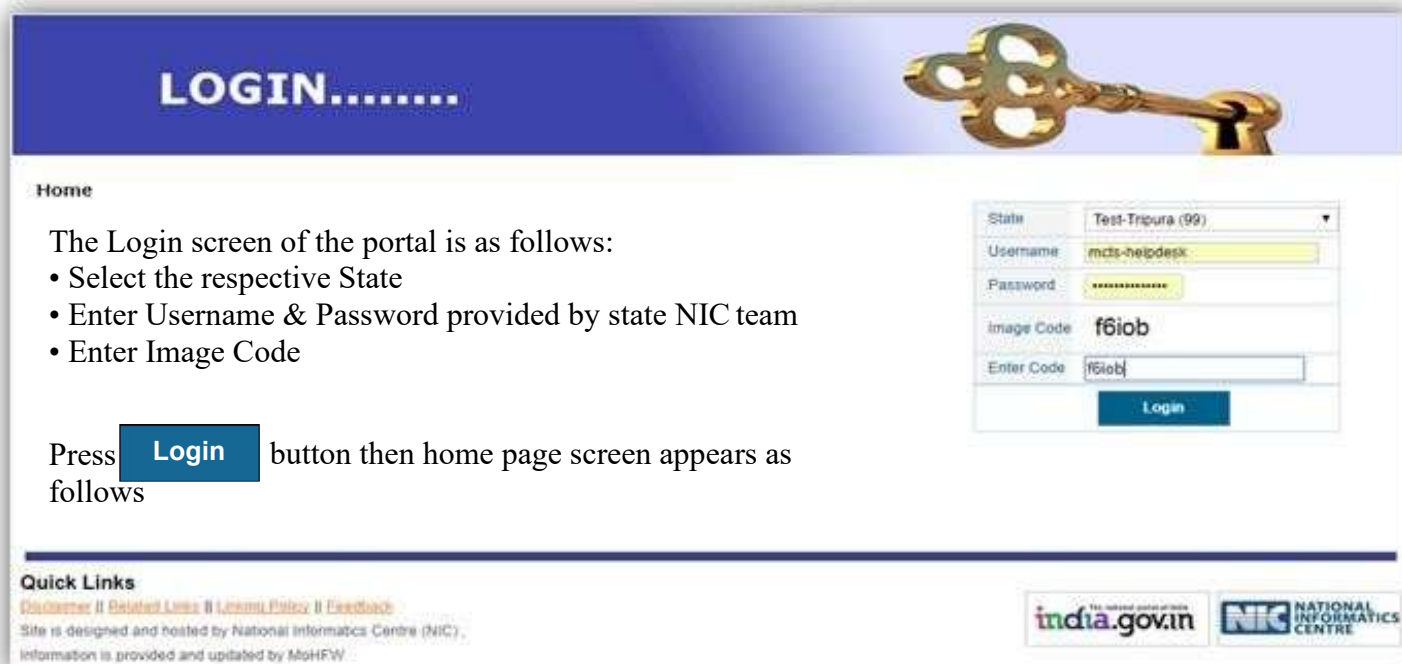

1. Login & Set Hierarchy

The URL of RCH(Reproductive & Child Health) portal is <https://rch.nhm.gov.in>

The Main screen of the RCH portal with **Data Entry**, **Reports** and **Common Master** module is as follows:

To access the data entry module, to enter and update the beneficiary details or services. Click on **“Data Entry”** button then user will get the login screen as given below below:

Home page has a menu bar with various tabs i.e. **Home**, **Set Location**, **Data Entry**, **Verification**, **MCTS Data**, **Content upload** and **Feedback**

Before Start data entry, User firstly set the data entry hierarchy and press on

Set Location

Reproductive and Child Health
Health and Family Welfare Department
Government of India

Home **Set Location** **Data Entry** **Verification** **Workplan** **MCTS Data** **Content Upload** **Feedback** [Log Out](#)

Welcome :: mcts-helpdesk State :: Test-Tripura (99)

Test-Tripura (99) Enter for active RCH / MCTS ID No. **Go**

Hierarchy Details : District : >> Rural/Urban : Urban >> Taluka/Tehsil/Sub District : >> PHC : >> SubFacility/SubCentre : >> Village :

Set the data entry hierarchy	
District : *	Sepahijala District(5) ▼
Health Block / Ward : *	<input checked="" type="radio"/> Health Block/Ward <input type="radio"/> Taluka/Tehsil/Sub District
	Bishalghar Health Sub-division (▼
Health Facility Type : *	Primary Health Centre (PHC) ▼
Health Facility : *	Bishramganj PHC (127) ▼
SubFacility / SubCentre :	Amtali (Sub-centre) (326) ▼
Village :	Amtali ADC Village * (10000542) ▼
Set	

After press 'Set Location' button 'Set the data entry hierarchy' window will appear then user need to:

1. Select **District*** Name
2. Choose **Health Block/ Ward*** or **Taluka/Tehsil/sub districts**
3. Select **Health Facility Type*** (PHC/CHC/DH/SDH/etc.)
4. Select **Health Facility***
5. Select **Sub Facility/Sub Centre**
6. Select **Village**

After set the data entry hierarchy home page screen appears.

There is a search section at the upfront of the page that can be used as quick search/Update If Eligible Couple/Pregnant Women/Child RCH/MCTS-ID is available.

2. Village Profile Registration

This is the first and mandatory step for new beneficiary registration and service updation on RCH Portal.

To Enter the Village profile press the **Data Entry** tab then below screen with **Profile Entry** module will appear as follows:

The screenshot displays the RCH Portal interface. At the top, the header includes the Government of India emblem, the text 'Reproductive and Child Health Health and Family Welfare Department Government of India', the 'NATIONAL HEALTH MISSION' logo, and a 'Log Out' link. Below this is a navigation bar with tabs: Home, Set Location, Data Entry, Verification, Workplan, MCTS Data, Content Upload, and Feedback. A welcome message reads 'Welcome :: mcts-helpdesk State :: Test-Tripura (99)'. The main content area is titled 'Data Entry' and features a grid of modules: Profile Entry (with a red arrow pointing to it), Eligible Couples, Pregnant Woman Entry, Child Entry, Health Provider / ASHA Entry, Bank Details Entry, Direct Data Entry, Advanced Search, EC Re-Registration, Edit Module, JSY PFMS Module (marked 'NEW'), and EC Shift to New Financial Year. Each module is represented by an icon and a text label.

To enter the village profile press on the **Profile Entry** module then village profile page will appear as follows:

Hierarchy Details : District : Sepahijala District >> Rural/Urban : Rural >> Health Block/Ward : Bishalghar Health Sub-division >> PHC : Bishramganj PHC >> SubFacility/SubCentre: Amtali (Sub-centre) (326) >> Village : Amtali ADC Village * (10000542)

Please update your village profile data for the current financial year if you have not updated yet.

7. EC Re-Registration

The pregnant woman can be re-registered as an Eligible Couple in the following conditions as given below:-

- All (except abortion cases)
- Abortion
- LMP Date +322 days and Delivery not Reported
- Delivery Date + 42 days

This screen shot of EC Re-Registration is given below:-

The screenshot shows the RCH Re-Registration web application. The header includes the Government of India logo and the text 'Reproductive and Child Health Health and Family Welfare Department Government of India'. Below the header is a navigation bar with links: Home, Set Location, Data Entry, Verification, Workplan, MCTS Data, Content Upload, and Feedback. A 'Log Out' link is also present. The main content area displays the 'Test-AP (95)' dropdown menu. Below this, the 'Hierarchy Details' section shows the selected location: District: Anantapur District >> Rural/Urban: Rural >> Health Block/Ward: Anantapur >> PHC: Bukkarayasamudram >> SubFacility/SubCentre: B.K.Samudram (2067) >> Village: A.S. Colony * (10000438). The 'Select Hierarchy' section contains dropdown menus for District, Health Block, PHC / Health Facility, SubCentre / SubFacility, and Village. The 'Select Combinations' section contains dropdown menus for Financial Year, RCH ID No., Register Serial No. of EC, Name of Wife, Name of Husband, Whose Mobile, Mobile Number, Wife Aadhaar No., and Husband Aadhaar No. A 'Note*' indicates that all records whose previous case data is incomplete. The bottom of the page shows a Windows taskbar with various application icons and the system clock displaying 10:40 on 01-10-2018.

The User can select the radio button according to their requirement and Select the hierarchy and Combinations. The details are given below:-

1. Select Hierarchy- The user select the following fields from the dropdown.
 - District
 - Health Block
 - PHC/Health Facility
 - Sub Centre/Sub Facility
 - Village
2. Select Combination- The user select and enter the following fields
 - Financial Year
 - RCH ID No.
 - Register Serial No. of EC
 - Name of Wife
 - Name of Husband
 - Whose Mobile
 - Wife
 - Husband

- Neighbour
- Relative
- Other
- Not Applicable
- Mobile Number
- Wife Aadhaar No.
- Husband Aadhaar No.

After capturing the above details, User click on search button, and the list is displayed in tabular format at the bottom of the page.

The screenshot shows the RCH portal interface. The header includes the Government of India logo and navigation tabs: Home, Set Location, Data Entry, Verification, Workplan, MCTS Data, Content Upload, and Feedback. The main content area has a section for 'Test-AP (95)' with a dropdown menu. Below this is a 'Hierarchy Details' section showing the path: District: Anantapur District >> Rural/Urban: Rural >> Health Block/Ward: Anantapur >> PHC: Bukkarayasamudram >> SubFacility/SubCentre: B.K.Samudram (2067) >> Village: A.S. Colony * (10000438). There are also radio buttons for filters: ALL(except abortion cases), Abortion, LMP date + 322 days and Delivery not Reported, Delivery date + 42 days, and MIGRATED DATA. The 'Select Hierarchy' section has dropdowns for District, Health Block, PHC / Health Facility, SubCentre / SubFacility, and Village. The 'Select Combinations' section has a table with columns: Financial Year, RCH ID No., Register Serial No. of EC, Name of Wife, Name of Husband, Whose Mobile, Mobile Number, Wife Aadhaar No., and Husband Aadhaar No. A dropdown menu is open for 'Whose Mobile' with options: --Select--, Select--, Wife, Husband, Neighbour, Relative, Other, and Not Applicable. Below this is a 'Search' button and a 'Save' button. A table at the bottom shows the beneficiary registration details for a single record.

Sr No.	SNo. in RCH Register	RCH ID No.	Wife Name	Husband Name	Mobile No.	Address	Pregnant	Enter Registration Date	Message
1	1	195003698456	GEETHA	Dileep	9496231051	Pullat	Yes	dd-mm-yyyy	

User enter the Registration Date and click on Save Button , then the beneficiary registration is called as 'Re-Registration of EC' with same RCH-ID.

8. Pregnant Woman Search

Once user filled and save pregnant woman details, then user needs to update the records and enter or update the services of the pregnant woman.

8.1 PW with RCH/MCTS-ID

While registering the pregnant woman details and every pregnant woman gets the auto generated RCH-ID with the help of RCH-ID user can update the details and other services from the home page quick search see the screenshot below.

Enter the ID in quick search option and press **Go** button then page will redirect on last updated record page and user can update the PW services on RCH portal see the below screenshot.

For Child Registration following information is mandatory (*)

- ☐ S. No. of RCH (As per Register).
- ☐ Registration Date (*Date should be greater than or equal to date of birth*).
- ☐ Name of child
- ☒ **Mother's name.**
- ☐ Father name.
- ☐ Sex of Child
- ☐ Whose Mobile.
- ☐ Mobile no.
- ☐ Address.
- ☐ Health Provider Name
- ☐ ASHA Name
- ☐ Date of Birth.
- ☐ Weight (Kg)

For Mother details link with child, Enter mother ID and Click Search ( icon. Once click Search icon , the following screen will appear –

*** Note :** If the Registration link is disabled in the record displayed below then please fill the delivery details of the mother from the delivery outcome section. ✖

Details of Mother				
Registration No	Registration Date	Mother Name	Delivery Date	Chronological Case No.
199000000360	09-06-2015	Pampi Debnath	2015-09-11	1

In this screen, **Registration number** will be appeared in the table. This Registration No. is mother's RCH ID. Click on Registration number, current screen automatically closed and all mandatory information like **Mother name**, **Father Name**, **Mobile number**, **Address**, **Date of Birth** and **Place of birth** will be auto filled. Remaining field will be entering as per RCH Register.

After completing Child Registration Click on **Save** button and a confirmation message will appear, click OK. After that click on Continue button or Click on Child Tracking link. Page will be auto redirect on Child Tracking Page.

9.2 Child Tracking of Services

Tracking of child services / immunization form provides information about Immunization services for Registered Infants and children.

For Tracking of Child data entry, following information is mandatory.

- ☐ Select ANM/ASHA.
- ☐ Immunization.
- ☐ Immunization Date.

Child Tracking

RCH ID No. of Child :	299000001046	S No. of Child in RCH Register:	123

After fill all mandatory field, click on Update Closure Status for Save records.

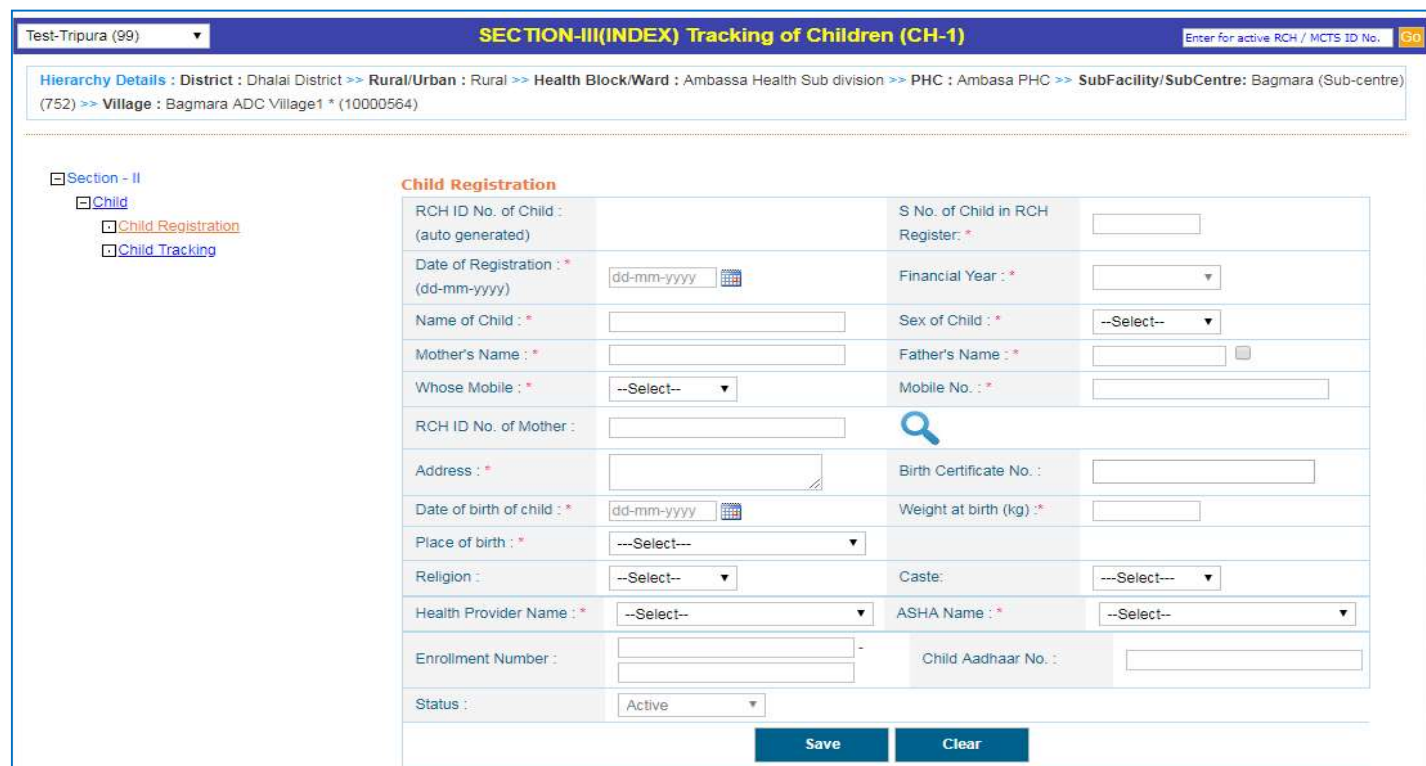

10. Child Search

Once user filled and save Child details, then user needs to update the records and enter or update the Immunization services of the Child.

10.1 Child with RCH/MCTS-ID

While registering the Child details and every Child gets the auto generated RCH-ID with the help of RCH-ID user can update the details and other services from the home page quick search see the screenshot below.

Enter the ID in quick search option and press **Go** button then page will redirect on last updated record page and user can update the Child services on RCH portal see the below screenshot.

10.2 Child without RCH/MCTS -ID

To search the registered child in RCH portal and missed the Child RCH-ID. To search the records, Go to data entry tab and press the “**Advanced Search**” module see screenshot below.

Click on **Advanced Search** tab and below screen has three link “Eligible Couple Search”, “Mother Search” and “Child Search” for the eligible couple, we click on the **Child Search** link.

After click on Child search “**List Of Child for Data Entry**” screen will appear as follow see the below screenshot.

The screenshot shows the 'List of Children' screen. At the top, there is a navigation bar with tabs: Home, Set Location, Data Entry, Verification, Workplan, MCTS Data, and Content Upload. The 'Data Entry' tab is selected. Below the navigation bar, there is a 'Test-Tripura (99)' dropdown and a 'List of Children' title. The hierarchy path is displayed: District : Dhalai District >> Rural/Urban : Rural >> Health Block/Ward : Ambassa Health Sub division >> PHC : Ambasa PHC >> SubFacility/SubCentre: Bagmara (Sub-centre) (752) >> Village : Bagmara ADC Village1 * (10000564). A 'Back' button is present. Below the hierarchy, there are radio buttons for 'RCH Entry' (selected) and 'Migrated Data from MCTS'. The 'Select Hierarchy' section contains dropdowns for District (Dhalai District(3)), Health Block (Ambassa Health Sub division), PHC / Health Facility (Ambasa PHC (197)), SubCentre / SubFacility (Bagmara (Sub-centre) (752)), and Village (Bagmara ADC Village1 * (10)). The 'Select Combinations' section contains various input fields: Search (Search By Hierarchy), Financial Year (2017-2018), Whose Mobile (—Select—), Mobile No., RCH ID No. of Mother, MCTS ID No. of Child, RCH ID No. of Child, Birth Date of Child (dd-mm-yyyy), Name of Mother, Name of Child, and SNo. in RCH Register. At the bottom, there are three buttons: Registered Child, Unregistered Child, and Mark for deletion.

Child search screen provides search functionality for registered Child, Unregistered Child and mark for deletion with two search radio button option 1) RCH Entry, 2) Migrated Data from MCTS.

- ❖ **RCH Entry:** Those Child have registered in RCH portal.
- ❖ **Migrated Data from MCTS:** Those Child registered in MCTS portal and migrated from the MCTS portal in RCH portal.

For Child search includes following options:

Select Hierarchy:

District -> Health Block -> PHC/ Health Facility -> Sub Centre / Sub Facility -> Village

Select Combination:

- ❖ Search: Search By Hierarchy, Search By ID and Search By Name
- ❖ Financial Year
- ❖ RCH/ MCTS ID No.
- ❖ Whose Mobile
- ❖ Mobile Number
- ❖ Name of Mother
- ❖ Name of Child
- ❖ Birth date of Child
- ❖ S. No of RCH Reg

User can search by above following option as mention above. Press **Registered Child** button then registered pregnant women list will appear bottom of the page (see the screenshot below).

11. Bank Details Entry

If any community mobilizer (ANM/ASHA) motivates Mother for Institutional delivery, then Mother and Community Mobilizer (ASHA/ANM) are entitled for incentives.

Hence in this module, the account details are captured for both Mother and Health Provider (ANM/ASHA). The screen shot is given below:-

The user click on Mother Bank to update the bank details of Mother. The following window will open

The User will select hierarchy and combinations.

Select Hierarchy- The selected field are given below:-

- District
- Health Block
- PHC/Health Facility
- Sub Centre/Sub Facility

Select Combinations- The selected fields are:-

- Search Option
- RCH/MCTS ID No.
- Financial Year

After select the fields the user will click on Search button, the screen shot is given below:-

The user can change the LMP date of the beneficiary and click of “Change” tab.

The message ‘ Record Update Successfully’ is displayed on the screen and click on OK, the record will be saved.

13. JSY PFMS Module

When the user click on the JSY PFMS tab the following window is opened.

The screenshot shows a web browser window displaying the JSY PFMS Module interface. The browser's address bar shows the URL: <https://rch.nhm.gov.in/RCH/UI/JsyPfms.aspx>. The page header features the Government of India emblem and the text "Reproductive and Child Health, Health and Family Welfare Department, Government of India". A navigation menu includes links for Home, Set Location, Data Entry, Verification, Workplan, MCTS Data, Content Upload, and Feedback. A "Log Out" link is also present. Below the navigation menu, a "Test-AP (95)" dropdown menu is visible. A "Hierarchy Details" section displays the following information: District : Anantapur District >> Rural/Urban : Rural >> Health Block/Ward : Anantapur >> PHC : Bukkarayasamudram >> SubFacility/SubCentre: B.K.Samudram (2067) >> Village : A.S. Colony * (10000438). The "PFMS Integration" section contains a "Search :*" dropdown menu, a "Select" dropdown menu, and an "RCH ID: *" input field. Below these fields are "Search" and "Clear" buttons. The Windows taskbar at the bottom shows the system clock as 11:12 on 01-10-2018.

The user will search by RCH- ID and enter the RCH-ID of the beneficiary and click on search tab. The screenshot is given below:-

The screenshot displays the JSY PFMS integration interface. The header includes the Government of India logo and the text 'Reproductive and Child Health, Health and Family Welfare Department'. The navigation menu contains links: Home, Set Location, Data Entry, Verification, Workplan, MCTS Data, Content Upload, and Feedback. The user is logged in as 'mcts-helpdesk' in the state of 'Test-AP (95)'. The location hierarchy is: District: Anantapur District >> Rural/Urban: Rural >> Health Block/Ward: Anantapur >> PHC: Bukkarayasamudram >> SubFacility/SubCentre: B.K.Samudram (2067) >> Village: A.S. Colony *(10000438). The 'PFMS Integration' section has a search bar with 'Search By RCH ID' selected and 'RCH ID *' set to '195003687229'. Below the search bar are 'Search' and 'Clear' buttons. A table displays the search results:

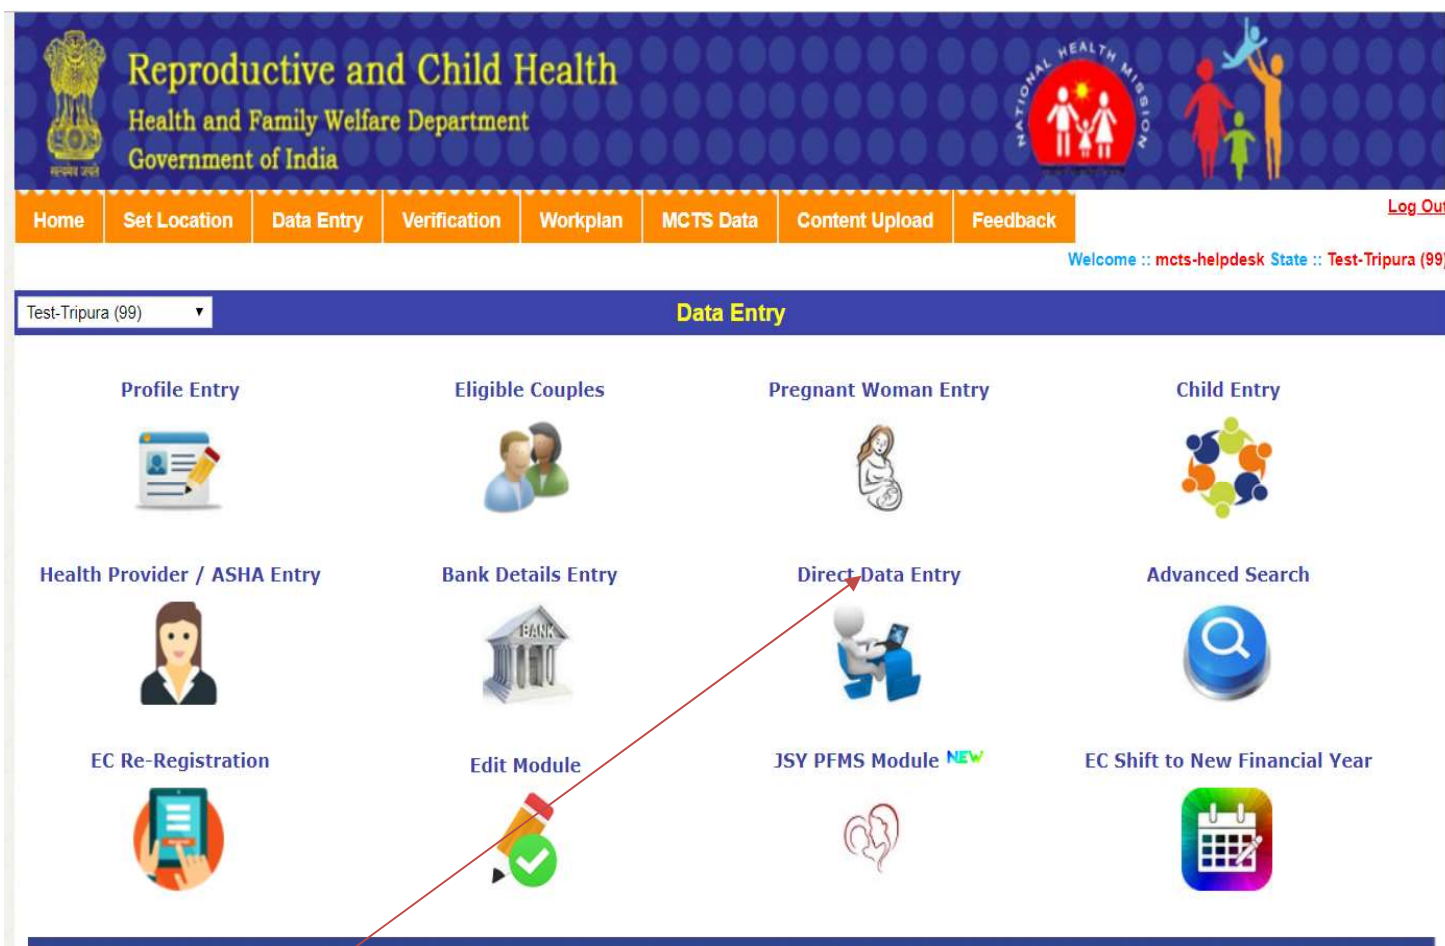

Sr. No.	RCH ID No. / MCTS ID No.	JSY.	Pregnancy Cycle.	Pregnancy Registration date.	EDD.	LMP Date.	Send To PFMS Date.	Select.
1	195003687229	YES	1	19/06/2018	14/02/2019	10/05/2018		<input checked="" type="checkbox"/>

Below the table is a 'SEND' button. The Windows taskbar at the bottom shows the date and time as 11:18 on 01-10-2018.

The user select the JSY beneficiary details and click on ‘send’ to transfer the beneficiary details to the PFMS . Thus the beneficiary will get benefitted for JSY amount by this module.

14. Direct Data Entry

If the beneficiary (Mother or Child) approaches directly to the facility, the user capture the details of the beneficiary through the “Direct Data Entry” Module, The screen shot is given below:-

Click on “Direct Data Entry”, then following window will open as given below:-
